NEW SERIES

VOLUME 11 TO VOLUME 20
(JANUARY, 1970 to JULY, 1979)

INDEX OF AUTHORS WITH RUNNING TITLES

AND

LIST OF ORIGINAL ARTICLES

A. INDEX OF AUTHORS WITH RUNNING TITLES

- Antonovics, J. (New japonica rice varieties) **19**: 145-170, 1978
Antonovics, J. (see Wu, H. P. **20**: 1-8, 1979)
Bau, Y. S. (see Ng, S. K. **12**: 45-49, 1971)
Bau, Y. S. (*Aspergillus penicilloides*) **20**: 19-28, 1979
Calpouzos, L. (see Chang, H. S. **14**: 35-40, 1973)
Chan, H. Y. (Research note: Rice breeding) **12**: 84-88, 1971
Chan, S. J. (see Chang, W. C. **17**: 192-202, 1976)
Chang, C. C. (Research note: A peptide from plant tissues) **13**: 121-124, 1972
Chang, C. C. (A peptide in crown gall tumors) **14**: 174-179, 1973
Chang, C. C. (Extracts of normal plants and galls) **16**: 101-114, 1975
Chang, C. C. (Special metabolites in crown gall tumors) **18**: 82-87, 1977
Chang, H. S. (*Puccinia graminis tritici*) **14**: 35-40, 1973
Chang, H. S. (Sporulation of *Helminthosporium*) **15**: 44-48, 1974
Chang, H. S. (*Helminthosporium* species) **15**: 103-111, 1974
Chang, H. S. (see Chiou, T. S. **16**: 159-176, 1975)
Chang, H. S. (see Chiou, T. S. **17**: 37-53, 1976)
Chang, H. S. (see Hsieh, H. J. **17**: 141-150, 1976)
Chang, H. S. (Light inhibits sclerotial formation) **18**: 39-44, 1977
Chang, H. S. (Mating type distribution of *C. miyabeanus*) **19**: 139-144, 1978
Chang, L. H. (see Tseng, T. C. **11**: 88-97, 1970)
Chang, L. H. (see Tseng, T. C. **11**: 120-122, 1970)
Chang, L. H. (see Tseng, T. C. **15**: 8-13, 1974)
Chang, L. C. (see Kuo, T. T. **12**: 1-9, 1971)
Chang, L. C. (see Kuo, T. T. **15**: 28-35, 1974)
Chang, M. C. (see Huang, T. C. **16**: 137-148, 1975)
Chang, M. C. (see Huang, T. C. **19**: 67-76, 1978)
Chang, T. T. (see Li, C. C. **11**: 61-78, 1970)
Chang, T. T. (Diallel cross of rice cultivars) **14**: 83-93, 1973
Chang, T. T. (see Loresto, G. C. **19**: 87-106, 1978)
Chang, W. C. (Lateral bud activation in Alaska pea) **15**: 57-60, 1974
Chang, W. C. (Root system in lateral bud growth of pea) **15**: 112-122, 1974
Chang, W. C. (Morphactin and apical dominance) **16**: 83-94, 1975
Chang, W. C. (Callus culture of duckweed) **17**: 106-109, 1976
Chang, W. C. (Nuclear histone and RNA) **17**: 192-202, 1976

- Chang, W.C. (ABA inhibits IAA transport) **17**: 203-213, 1976
- Chang, W.L. (Stability of rice yield) **17**: 54-62, 1976
- Chang, Y.S. (see Yuan, H.F. **19**: 125-138, 1978)
- Chen, Andrew C.S. (see Chou, C.H. **17**: 25-36, 1976)
- Chen, C. (Secondary 42-chromosome triticales) **18**: 89-100, 1977
- Chen, C.C. (see Yu, P.H. **11**: 98-104, 1970)
- Chen, C.C. (Rice plantlets from anther culture) **17**: 18-24, 1976
- Chen, C.S. (Amino acid labeling patterns) **14**: 48-60, 1973
- Chen, C.S. (¹⁴C distribution in the carboxyl group) **15**: 61-68, 1974
- Chen, C.S. (FIG transport systems in *C. acidi-urici*) **16**: 1-9, 1975
- Chen, S.J. (see Lin, B.C. **20**: 157-171, 1979)
- Chen, Shepley S.C. (see Pan, S.M. **20**: 89-96, 1979)
- Chiang, Y.C. (see Chou, C.H. **19**: 107-124, 1978)
- Chiang, Y.C. (see Chou, C.H. **20**: 123-144, 1979)
- Chien, M.C. (see Lin, B.C. **20**: 157-171, 1979)
- Chiou, T.S. (Aquatic phycomycetes of Taiwan I.) **16**: 159-176, 1975
- Chiou, T.S. (Aquatic phycomycetes II.) **17**: 37-53, 1976
- Chiu, P.L. (see Chang, W.C. **17**: 106-109, 1976)
- Chou, C.H. (Effect of fire on chaparral) **14**: 23-34, 1973
- Chou, C.H. (Allelopathy of *Miscanthus floridulus*) **15**: 14-27, 1974
- Chou, C.H. (Leaching of cations from *Miscanthus floridulus*) **16**: 10-18, 1975
- Chou, C.H. (LPC in *Miscanthus floridulus*) **16**: 191-199, 1975
- Chou, C.H. (Leaching metabolites of vegetation in Taiwan) **17**: 25-36, 1976
- Chou, C.H. (Phytotoxins of rice stubbles on leachable nitrogen) **18**: 45-60, 1977
- Chou, C.H. (Amino acids of leaf protein) **18**: 101-108, 1977
- Chou, C.H. (Phytotoxins in subtropical grasses) **18**: 131-142, 1977
- Chou, C.H. (Water pollution on crops in Taiwan) **19**: 107-124, 1978
- Chou, C.H. (Water pollution in Taiwan) **20**: 123-144, 1979
- Chou, T.S. (see Chan, H.Y. **12**: 84-88, 1971)
- Chou, T.S. (see Chu, Y.E. **13**: 11-18, 1972)
- Chow, T.Y. (see Kuo, T.T. **11**: 36-45, 1970)
- Chow, T.Y. (Stability of phage Xp12) **12**: 57-65, 1971
- Chow, T.Y. (see Kuo, T.T. **13**: 104-110, 1972)
- Chu, Y.E. (see Tong, W.F. **11**: 55-60, 1970)
- Chu, Y.E. (Hybrid rice breeding) **11**: 105-112, 1970
- Chu, Y.E. (see Chan, H.Y. **12**: 84-88, 1971)
- Chu, Y.E. (Bamboo clones, *Dendrocalamus latiflorus*) **13**: 11-18, 1972
- Chu, Y.E. (Reproductive barriers in rice) **13**: 47-66, 1972
- Chua, B.K. (see Wang, P.J. **13**: 118-120, 1972)

- Chung, Y. T. (see Chou, C. H. **15**: 14-27, 1974)
- Day, H. J. (see Lin, B. C. **20**: 157-171, 1979)
- Estey, R. H. (see Tzean, S. S. **18**: 143-152, 1977)
- Fan, H. N. (Rice wilt and polysaccharide) **13**: 111-117, 1972
- Feng, T. Y. (Bacterial leaf blight of rice plant) **16**: 126-136, 1975
- Funderburk, H. H. Jr. (see Yang, J. S. **19**: 179-194, 1978)
- Goodin, J. R. (see Chang, W. C. **15**: 112-122, 1974)
- Han Kuo C. S. (see Tseng, T. C. **18**: 117-130, 1977)
- Hou, C. R. (see Lai, K. L. **16**: 45-54, 1975)
- Hou, H. H. (Nuclear behavior of cultivated mushroom) **13**: 82-91, 1972
- Hsieh, H. J. (*Pythium* in Taiwan) **17**: 141-150, 1976
- Hsieh, H. J. (An annotated list of *Pythium* in Taiwan) **19**: 199-205, 1978
- Hsu, C. C. (see Peng, C. I. **19**: 53-66, 1978)
- Hsu, W. (see Chiou, T. S. **16**: 159-176, 1975)
- Hu, C. H. (Cytogenetic studies of *Oryza officinalis*) **20**: 39-49, 1979
- Hu, S. P. (see Chang, C. C. **16**: 101-114, 1975)
- Huang, A. C. (see Chou, C. H. **20**: 123-144, 1979)
- Huang, A. S. (see Palma L. E. **14**: 136-150, 1973)
- Huang, C. (see Chou, C. H. **16**: 191-199, 1975)
- Huang, C. (see Chou, C. H. **18**: 101-108, 1977)
- Huang, C. S. (Root-knot nematode on stems) **11**: 79-87, 1970
- Huang, C. S. (Peroxidase in nematode-induced galls) **12**: 74-83, 1971
- Huang, C. S. (*Aphelenchoides besseyi* in rice florets) **13**: 1-10, 1972
- Huang, C. Y. (Effect of nitrogen fixing activity) **19**: 41-52, 1978
- Huang, J. Y. (see Woo, S. C. **19**: 171-178, 1978)
- Huang, S. P. (see Huang, C. S. **12**: 74-83, 1971)
- Huang, S. P. (see Huang, C. S. **13**: 1-10, 1972)
- Huang, T. C. (A now-specific nucleotidase) **14**: 161-173, 1973
- Huang, T. C. (Mol. Wt. of MoFd subunits) **15**: 36-43, 1974
- Huang, T. C. (Membrane-bound adenosine triphosphatase) **16**: 36-44, 1975
- Huang, T. C. (Xanthobacidine, a new antibiotic) **16**: 137-148, 1975
- Huang, T. C. (see Poon, E. S. **18**: 61-70, 1977)
- Huang, T. C. (*E. coli* against *Pseudomonas* sp.) **19**: 67-76, 1978
- Huang, T. C. (*Ceratopteris taiwanensis* Huang sp.) **18**: 78-81, 1977
- Huang, T. C. (Miocene palynomorphs of Taiwan) **19**: 13-32, 1978
- Huang, T. C. (Miocene palynomorphs of Taiwan) **19**: 77-82, 1978
- Huang, Y. T. (see Chou C. H. **20**: 123-144, 1979)
- Hwa, C. S. (see Shih, C. Y. **20**: 50-57, 1979)
- Jeng, S. J. (see Lin, Y. H. **18**: 109-116, 1977)
- Juang, S. M. (see Wang, P. J. **12**: 41-44, 1971)

- Kado, C.I. (see Lin, B.C. **18**: 71-77, 1977)
- Kan, L.S. (Nuclear magnetic resonance) **14**: 180-204, 1973
- Kao, C.I. (see Chou, C.H. **18**: 45-60, 1977)
- Kao, C.I. (see Chou, C.H. **19**: 107-124, 1978)
- Kao, C.Y. (see Wu, L.C. **13**: 92-103, 1972)
- Keng, H. (Phylloclade of *Phyllocladus*) **20**: 9-18, 1979
- Kiang, Y.T. (see Wu, L. **20**: 97-102, 1979)
- Kiang, Y.T. (Esterase in rice) **20**: 103-116, 1979
- Koh, H.L. (Strain of *Aspergillus flavus* group) **16**: 115-125, 1975
- Kung, S.D. (Isoelectric points of fraction I protein) **17**: 185-191, 1976
- Kuo, T.T. (Bacterial leaf blight of rice plant) **11**: 36-45, 1970
- Kuo, T.T. (Bacterial leaf blight of rice plant) **11**: 46-54, 1970
- Kuo, T.T. (Bacteriophage and infectivity of *X. oryzae*) **12**: 1-9, 1971
- Kuo, T.T. (see Chow, T.Y. **12**: 57-65, 1971)
- Kuo, T.T. (Deoxyribonucleoside triphosphates) **13**: 19-28, 1972
- Kuo, T.T. (see Yang, S.E. **13**: 71-74, 1972)
- Kuo, T.T. (Calcium in phage Xp12 proliferation) **13**: 104-110, 1972
- Kuo, T.T. (see Fan, H.N. **13**: 111-117, 1972)
- Kuo, T.T. (see Huang, T.C. **14**: 161-173, 1973)
- Kuo, T.T. (Host specificities of bacteriophages) **15**: 28-35, 1974
- Kuo, T.T. (see Huang, T.C. **16**: 36-44, 1975)
- Kuo, T.T. (see Yang, S.E. **16**: 61-65, 1975)
- Kuo, T.T. (see Feng, T.Y. **16**: 126-136, 1975)
- Kuo, T.T. (see Poon, E.S. **18**: 61-70, 1977)
- Kuo, T.T. (see Tzean, S.S. **20**: 58-88, 1979)
- Lai, K.L. (Light on the cultured rice roots) **16**: 45-54, 1975
- Lee, C.D. (see Chou, C.H. **20**: 123-144, 1979)
- Lee, S.L. (see Tseng, T.C. **11**: 88-97, 1970)
- Lee, S.L. (see Tseng, T.C. **14**: 41-47, 1973)
- Li, C.C. (see Kuo T.T. **11**: 46-54, 1970)
- Li, C.C. (Inheritance of the optimum and critical photoperiods) **11**: 1-15, 1970
- Li, C.C. (Diallel analysis of agronomic traits) **11**: 61-78, 1970
- Li, C.C. (see Chang, T.T. **14**: 83-93, 1973)
- Li, H.W. (see Tong, W.F. **11**: 55-60, 1970)
- Li, H.W. (see Chu, Y.E. **11**: 105-112, 1970)
- Li, H.W. (see Wu, L. **11**: 113-117, 1970)
- Li, H.W. (Research Note: Specimen preparation) **11**: 118-119, 1970
- Li, H.W. (see Chan, H.Y. **12**: 84-88, 1971)
- Li, Y.S. (see Chu, Y.E. **13**: 11-18, 1972)
- Li, Y.S. (Gramicidine D enhanced fluorescence yield) **14**: 65-69, 1973

- Li, Y.S. (Estimation of relative five fluorescence yield) **14**: 70-73, 1973
Li, Y.S. (Chloroplast mutant and fluorescence at 77°K) **15**: 96-102, 1974
Li, Y.S. (Chloroplast fluorescence at 77°K) **15**: 89-95, 1974
Li, Y.S. (Charge separation at Photosynthetic system II) **18**: 169-178, 1977
Li, Y.S. (Redox of Q regulated slow fluorescence) **19**: 33-40, 1978
Liang, C.C. (see Chou, C.H. **18**: 101-108, 1977)
Liaw, S.I. (see Yie, S.T. **16**: 149-158, 1975)
Lin, B.C. (see Kuo T.T. **11**: 46-54, 1970)
Lin, B.C. (Galactose by normal and transformed) **18**: 71-77, 1977
Lin, B.C. (Plasmids in *X. manihotis*) **20**: 157-171, 1979
Lin, B.Y. (see Chang, C.C. **14**: 174-179, 1973)
Lin, B.Y. (see Chang, C.C. **16**: 101-114, 1975)
Lin, B.Y. (see Chang, C.C. **18**: 82-87, 1977)
Lin, F.H. (see Huang, T.C. **14**: 161-173, 1973)
Lin, F.H. (see Huang, T.C. **16**: 36-44, 1975)
Lin, F.H. (see Yang, S.E. **16**: 61-65, 1975)
Lin, F.S. (see Kuo, T.T. **15**: 28-35, 1974)
Lin, L.H. (see Huang, C.S. **11**: 79-87, 1970)
Lin, L.H. (see Huang, C.S. **12**: 74-83, 1971)
Lin, M.H. (see Chen, C.C. **17**: 18-24, 1976)
Lin, S.H. (see Wang, C.K. **16**: 200-204, 1975)
Lin, T. (see Lin, T.L. **16**: 177-190, 1975)
Lin, T.J. (see Chou, C.H. **18**: 45-60, 1977)
Lin, T.L. (A monte carlo simulation on host-parasite interaction) **13**: 37-46, 1972
Lin, T.L. (Egg clusters of *Scirpophaga nivella*) **16**: 177-190, 1975
Lin, T.L. (Distribution of dead-hearts of sugar cane) **17**: 74-94, 1976
Lin, W.H. (see Chou, C.H. **20**: 123-144, 1979)
Lin, Y.H. (Marine red alga *Porphyra crispata*) **11**: 27-35, 1970
Lin, Y.H. (DNA synthesis of Walker-256) **16**: 25-35, 1975
Lin, Y.H. (DNA synthesis of Walker-256) **16**: 95-100, 1975
Lin, Y.H. (DNA synthesis of Walker-256) **17**: 95-105, 1976
Lin, Y.H. (Trypsin inhibitor of *Solanum tuberosum*) **18**: 109-116, 1977
Lin, Y.T. (see Kuo, T.T. **11**: 36-45, 1970)
Lin, Y.T. (see Chow, T.Y. **12**: 57-65, 1971)
Lin, Y.T. (see Kuo, T.T. **13**: 104-110, 1972)
Liu, D.F. (see Tseng, T.C. **16**: 55-60, 1975)
Liu, S.T. (see Tschen, J. **12**: 50-56, 1971)
Loresto, C.G. (Dwarf, semidwarf and tall of rice) **19**: 87-106, 1978
Lu, S.Y. (A new *Alyxia* for Taiwan) **19**: 195-198, 1978
Luo, C.C. (SLW and rice yield) **20**: 145-156, 1979

B. LIST OF ORIGINAL ARTICLES

Vol. 11 (1970)

(No. 1)

1. Li, Cheng-Chang: Inheritance of the optimum photoperiod and critical photoperiod in tropical rices. 1-15.
2. Tsai, Kuo-Hai and Hiko-Ichi Oka: Genetic studies of yielding capacity and adaptability in crop plants. 4. Effects of an earliness gene, *M₁*, in the genetic background of a rice variety, Taichung 65. 16-26.
3. Lin, Yaw-Huei and Jong-Ching Su: Chromoproteins of marine red alga *Porphyra crispata*. 27-35.
4. Kuo, Tsong-Teh, Chin-Mei Yang, Teh-Yuan Chow and Ying-Tzu Lin: Bacterial leaf blight of rice plant. II. The formation and properties of spheroplasts of *Xanthomonas oryzae*. 36-45.
5. Kuo, Tsong-Teh, Bor-Chian Lin and Cheng-Chu Li: Bacterial leaf blight of rice plant. III. Phytotoxic polysaccharides produced by *Xanthomonas oryzae*. 46-54.
6. Tong, W.F., Y.E. Chu and H.W. Li: Variations in protein and amino acid contents among genetic stock of rice. 55-60.

(No. 2)

7. Li, Cheng-Chang and Te-Tzu Chang: Diallel analysis of agronomic traits in rice (*Oryza sativa* L.). 61-78.
8. Huang, C.S. and L.H. Lin: Pathological responses of stems to root knot nematode infection. 79-87.
9. Tseng, Tsung-Che, Shih-Lo Lee and Lin-Huay Chang: An extracellular phosphatidase produced by *Botrytis cinerea* *in vitro*. 88-97.
10. Yu, Peter Hao, Chi-Chang Chen and Lung-Chi Wu: The production of indoleacetic acid by *Nectria pterospermi* Saw. 98-104.
11. Chu, Y.E., K.S. Tsai and H.W. Li: Hybrid rice breeding. I. Variations of flowering time and duration. 105-112.
12. Wu, Lin and H.W. Li: Esterase isozyme patterns in rice somatic organs and the 2,4-D induced callus tissues. 113-117.
13. Li, H.W. and Lin Wu: Preparation of cytological specimens using gastric juice of african giant snail. 118-119.
14. Tseng, Tsung-Che and Lin-Huay Chang: Phosphatidases produced by some fungal rice pathogens *in vitro*. 120-122.

Vol. 12 (1971)**(No. 1)**

15. Kuo, Tsong-Teh, Lu-Ching Chang, Chin-Mei Yang and Suh-Er Yang: Bacterial leaf blight of rice plant. IV. Effect of bacteriophage on the infectivity of *Xanthomonas oryzae*. 1-9.
16. Woo, Shih-Chu, Chi-Ming Ng and Ee-Mooi Tye: Induction of mutations in cultivated rice by chemical and physical agents. 1. The effects of isopropyl methane sulfonate, diethyl sulfate, and gamma radiations on seed germination and seedling height injury. 10-23.
17. Wang, Po-Jen: Simplified techniques for enzymo-histochemical studies of plant shoot apex. 24-30.
18. Wang, Po-Jen: Histochemical studies of the shoot apex in *Brassica chinensis*, cultivar To-pe-tsai. 31-40.

(No. 2)

19. Wang, Po-Jen and Sue-Mei Juang: Studies on the tissue culture of sugar cane (*Sacharum officinarum* L.) CV. N. CO-310. I. Callus induction and single cell isolation. 41-44.
20. Ng, Shung-Ko and Yun-Shen Bau: Indole auxins contained in *Saccharomyces cerevisiae* and a mutant of *Aspergillus niger*. 45-49.
21. Tschen, J. and S.T. Liu: Respiratory activities of *Chlorella ellipsoidea* in various nutrient media. 50-56.
22. Chow, Teh-Yuan, Ying-Tzu Lin and Tsong-Teh Kuo: Stability of phage Xp12. 57-65.
23. Woo, Shiu-Chu, Chi-Ming Ng and Ing-Jiunn Tung: Induction of mutations in cultivated rice by chemical and physical agents. II. The effect of M₁ damage and M₂ mutations. 66-73.
24. Huang, C.S., L.H. Lin and S.P. Huang: Alterations in peroxidase activities induced by root knot nematode on tomato. 74-83.
25. Chan, H.Y., T.S. Chou, Y.E. Chu and H.W. Li: Breeding for high protein and balanced amino acid rice varieties. II. Application of dye-binding capacity method in rice grain. 84-88.

Vol. 13 (1972)**(No. 1)**

26. Huang, C.S. and S.P. Huang: Bionomics of white-tip nematode, *Aphelenchoides besseyi*, in rice florets and developing grains. 1-10.
27. Chu, Y.E., T.S. Chou, Y.S. Li, C.Y. Shih and S.C. Woo: Identification of bamboo clones, *Dendrocalamus latiflorus*, in Taiwan. 11-18.
28. Kuo, Tsong-Teh: Incorporation of deoxyribonucleoside triphosphates into *Escherichia coli* cells. 19-28.

29. Wu, Hong-Pang: Genetic basis of plant stability in *Arabidopsis thaliana*. I. Fluctuation of heritability and correlation. 29-36.
30. Lin, Tsan-Long: A Monte Carlo simulation on host-parasite interaction. I. Random spacial pattern. 37-46.
31. Chu, Y.E.: Genetic bases, classification and origin of reproductive barriers in *Oryza* species. 47-66.
32. Woo, Shiu-Chu and Ing-Jiunn Tung: Induction of rice plants from hybrid anthers of *Indica* and *Japonica* cross. 67-70.
33. Yang, Suh-Er and Tsong-Teh Kuo: Role of aminotranferase in the synthesis of 5-methylcytosine in phage Xp12 infected cells. 71-74.

(No. 2)

34. Tschen, Johannes: Separation of phosphorylase and UDPG-pyrophosphorylase from bean leaves by polyacrylamide gel disc electrophoresis. 75-81.
35. Hou, Hsing-Hsiung and Lung-Chi Wu: Nuclear behavior of cultivated mushroom. 82-91.
36. Wu, Lung-Chi, Wei-Gun Yang and Che-Yen Kao: Nature of drug tolerance in *Sclerotium rolfsii*. 92-103.
37. Kuo, Tsong-Teh, Teh-Yuan Chow and Ying-Tzu Lin: Role of calcium ion in proliferation of phage Xp12 of *Xanthomonas oryzae*. 104-110.
38. Fan, H.N. and T.T. Kuo: Bacterial leaf blight of rice plant. V. The nature of rice wilt induced by *Xanthomonas oryzae* polysaccharide. 111-117.
39. Wang, Po-Jen and Beng-Khoon Chua: Induction of callus from stem section of *Cryptomeria japonica*. 118-120.
40. Chang, Chi-Cheng: Isolation of a peptide from plant tissues. 121-124.

Vol. 14 (1973)

(No. 1)

41. Wu, Rong-Yang: Isolation and preliminary characterization of two bacteriophages for *Bacillus subtilis*. 1-9.
42. Yie, Shi-Tao and Jui-Sen Yang: On the nutrition of excised rice embryo. 10-22.
43. Chou, Chang-Hung: The effect of fire on the California chaparral vegetation. 23-34.
44. Chang, Ho-Shii and L. Calpouzos: Phototropism of the uredospores germ tubes of *Puccinia graminis tritici*. 35-40.
45. Tseng, Tsung-Che and Shih-Lo Lee: *Sclerotium rolfsii* phosphatidase induced permeability change in mung bean (*Phaseolus aureus*) hypocotyls. 41-47.

46. Chen, Ching-San and J.C. Rabinowitz: Amino acid labeling patterns of *Clostridium acidi-urici* and *Clostridium cylindrosporum* cells grown in the presence of [¹⁴C]-formiminoglycine. 48-60.
47. Woo, Shiu-Chu, Hsiu-Yuan Su, Chi-Ming Ng and Ing-Jounn Tung: Seed formation on induced haploid plant and cytology of anther callus from hybrid rice. 61-64.
48. Li, Yung-Sing: Gramicidine D enhanced ferricyanide hill reaction and fluorescence intensity during electron transport—An indication of a possible coupling site on the H₂O side of Photosystem II. 65-69.
49. Li, Yung-Sing: Estimation of relative live fluorescence quantum yield by the area over fluorescence rise curve. 70-73.

(No. 2)

50. Weng, Teng-Shan: On canonical reduction of general multivariate linear hypothesis. 75-82.
51. Chang, Te-Tzu, Cheng-Chang Li and Oscar Tagumpay: Genotypic correlation, heterosis, inbreeding depression and transgressive segregation of agronomic traits in a diallel cross of rice (*Oryza sativa* L.) cultivars. 83-93.
52. Tan, W.Y.: Applications of some finite Markov chain theories to some genetic problems. Parent-offspring mating type model with selection. 94-114.
53. Wu, Chung: A biochemical basis for carcinogenesis. 115-124.
54. Tsai, Chia-Yin: The activities of maize α -1,4, glucan glucosyltransferases *in vitro*. 125-135.
55. Palma, L. Eduardo and Alice S. Huang: Cyclic production of vesicular stomatitis virus caused by defective interfering particles. 136-150.
56. Wu, Hong-Pang: Studies on the methods of estimating plant stability. 151-160.
57. Huang, Tan-Chi, Fu-Hsiung Lin and Tsong-Teh Kuo: Purification and properties of a non-specific nucleotidase active against 5'-nucleotides and 3'-nucleotides from *Xanthomonas oryzae*. 161-173.
58. Chang, Chi-Cheng and Bi-Yu Lin: Accumulation of a peptide in crown gall tumors. 174-179.
59. Kan, S. Lou and Paul O.P. Ts'o: An introduction to nuclear magnetic resonance studies of nucleic acid. 180-204.

Vol. 15 (1974)

(No. 1)

60. Tschen, J.: Changes of several enzyme activities of carbohydrate catabolism in bean leaf tissues infected with *Uromyces phaseoli typica*. 1-7.

61. Tseng, Tsung-Che and Lin-Huey Chang: *Sclerotium rolfsii* phosphatidase B.I. Inhibition of mung bean mitochondrial oxygen uptake by the phosphatidase. 8-13.
62. Chou, Chang-Hung and Yea-Tzer Chung: The allelopathic potential of *Miscanthus floridulus*. 14-27.
63. Kuo, Tsong-Teh, Lu-Ching Chang and Fan-San Lin: Host specificities of five bacteriophages isolated from *Xanthomonas oryzae*. 28-35.
64. Huang, Tan-Chi: Molecular weight determination of the subunits of molybdoferredoxin by sepharose 6B in the presence of 6M guanidine-HCl. 36-43.
65. Chang, Ho-Shii: Light effects on the sporulation of some species of *Helminthosporium*. 44-48.
66. Tseng, Tsung-Che: Multiple cellulase produced by a soft rot bacterium, *Erwinia carotovora*. 49-53.
67. Woo, Shiu-Chu, Wen-Hsiung Wu and Ing-Jiunn Tung: Two semi-dwarfness gene induced from *Japonica* rice, Chianung 242 and Tainan 5. 54-56.
68. Chang, Wei-Chin: Regulation of lateral bud activation in Alaska pea. 57-60.

(No. 2)

69. Chen, Ching-San: ¹⁴C distribution in the carboxyl groups of glutamic acid in *Clostridium acidi-urici* fed with [2-¹⁴C]-formiminoglycine. 61-68.
70. Wu, Hong-Pang: Genetic basis of plant stability in *Arabidopsis thaliana*. II. Inheritance and stability. 69-88.
71. Li, Yung-Sing: The thermal and the ion effects on the low temperature emission spectrum of spinach chloroplast. 89-95.
72. Li, Yung-Sing: Low temperature fluorescence spectra of the wild type and of chloroplast membrane mutant of *Chlamydomonas reinhardi*. The relationship between fluorescence reabsorption and membrane stacking. 96-102.
73. Chang, Ho-Shii: Inter-cross fertility between *Helminthosporium oryzae*, *H. zizaniae* and an unidentified *Helminthosporium* sp. on *Zizania aquatica*. 103-111.
74. Chang, W.C. and J.R. Goodin: The role of root system in lateral bud growth of pea (*Pisum sativum* L., var. Alaska). 112-122.
75. Yuan, Hso-Freng: A chemical study of the cell wall polysaccharide of chinese celery (*Oenanthe javanica* DC). 123-131.

Vol. 16 (1975)

(No. 1)

76. Chen, Ching-San: Formiminoglycine transport systems in *Clostridium acidi-urici*. 1-9.

77. Chou, Chang-Hung: Leaching of cations from *Miscanthus flouridulus* and its associated soils. 10-18.
78. Woo, Shiu-Chu and Hsiu-Yuan Su: Doubled haploid rice from *Indica* and *Japonica* hybrids through anther culture. 19-24.
79. Lin, Yaw-Huei and R. A. Smith: DNA synthesis of Walker-256 carcinosarcoma nuclei *in vitro*. I. Existence of TTP phosphatase activity and its inhibition by ATP. 25-35.
80. Huang, Tan-Chi, Fu-Hsiung Lin and Tsong-Teh Kuo: Properties of membranebound adenosine triphosphatase from *Xanthomonas oryzae*. 36-44.
81. Lai, Kwan-Long and Chin-Ri Hou: Effects of light on the cultured rice roots. 45-54.
82. Tseng, Tsung-Che, Dai-Fan Liu and Sue-Yuan Shiao: Isolation of protoplasts from crop plants. 55-60.
83. Yang, Sur-Er, Fu-Hsiung Lin and Tsong-Teh Kuo: The utilization of exogenously supplied nucleotide by *Xanthomonas oryzae*. 61-65.

(No. 2)

84. Tan, W. Y.: On the biometrical analysis quantitative genetics. 67-82.
85. Chang, Wei-Chin: Apical dominance in pea: Effects of morphactin on transport of auxin and kinetin. 83-94.
86. Lin, Yaw-Huei and R. A. Smith: DNA synthesis of Walker-256 carcinosarcoma nuclei *in vitro*. II. The existence of TDP phosphatase activity. 95-100.
87. Chang, Chi-Cheng, Bi-Yu Lin and Shene-Pin Hu: Observations on some simple peptides and two unknown Pauly-positive components in normal plants, crown gall tumors and tomato nematode gall. 101-114.
88. Koh, Hong-Lian and Tsung-Che Tseng: Isolation and identification of an aflatoxin-producing strain of *Aspergillus flavus* group from stored rice. 115-125.
89. Feng, Teng-Yung and Tsong-Teh Kuo: Bacterial leaf blight of rice plant. VI. Chemotactic responses of *Xanthomonae oryzae* to water droplets exudated from water pores on the leaf of rice plants. 126-136.
90. Huang, Tan-Chi and Miao-Chan Chang: Studies on xanthobacidine, a new antibiotic from *Bacillus subtilis* active against *Xanthomonas*. 137-148.
91. Yie, Shi-Tao and Song-Iuan Lian: Studies on the growth and development of excised embryos of different varieties of rice. 149-158.
92. Chiou, Tin-Son, Wei-Hsu and Ho-Shii Chang: Aquatic fungi of Taiwan I. 159-176.

93. Lin, Tsan-Long and Tsen Lin: Distribution of the egg clusters of *Scirpophaga nivella* (Lepidoptera: Pyralidae) on sugar cane. 177-190.
94. Chou, Chang-Hung, Chiu-Chung Young and Chia Huang: Quality of leaf protein concentrates in *Miscanthus floridulus*. 191-199.
95. Wang, Chung-K'uei and Sang-Hsiung Lin: *Entodon taiwanensis* and *Floribundaria torquata*, new species of mosses from Taiwan. 200-204.

Vol. 17 (1976)**(No. 1)**

96. Tan, W. Y.: On the biometrical genetics of autotetraploid from a cross between two pure lines. 1-17.
97. Chen, Chi-Cheng and Ming-Hwa Lin: Induction of rice plantlets from anther culture. 18-24.
98. Chou, Chang-Hung and Andrew Chung-Sing Chen: Leaching metabolites in the vegetation of northern Taiwan. I. Release of cations in some vegetations of northern Taiwan. 25-36.
99. Chiou, Tin-Son and Ho-Shii Chang: Aquatic phycomycetes of Taiwan. II. 37-53.
100. Chang, Wan-Lai and Hong-Pang Wu: Comparison of yield stability among pure, mixed, and hybrid populations of rice. 54-62.
101. Tseng, Tsung-Che and Sue-Yuan Shiao: Rice (*Oryza sativa* L.) protoplast. 63-73.
102. Lin, Tsan-Long: Distribution of dead-hearts of sugar cane and transformation of data. 74-94.
103. Lin, Yaw-Huei and R. A. Smith: DNA synthesis of Walker-256 carcinosarcoma nuclei *in vitro*. III. Possible regulating factors in DNA synthesis and their responses to adenosine triphosphate. 95-105.
104. Chang, Wei-Chin and Pao-Ling Chiu: Induction of callus from fronds of duckweed (*Lemna gibba* L.). 106-109.

(No. 2)

105. Tseng, Tsung-Che: Purification of enzymes (Phosphatidase C, protease, and *endo*-polyglacturonate *trans*-eliminase) produced by *Erwinia carotovora* and their effects on the activity of potato mitochondria. 111-125.
106. Weng, Ten-Shan: Sequences of products arising in some Mendelian semialgebras. 126-140.
107. Hsieh, Huann-Ju and Ho-Shii Chang: Five species of *Pythium*, two species of *Pythiogeton* new for Taiwan and *Pythium afertile*. 141-150.
108. Wu, Wen-Shi: Increasing the effectiveness of seed-treated fungicides by the pelleting method. 151-160.

109. Wu, Wen-Shi: Biological control of seed and soil-borne fungi associated with wheat and oats. 161-168.
110. Mok, To and Shiu-Chu Woo: Identification of pollen plants regenerated from anthers of an intersubspecific rice hybrid. 169-174.
111. Wu, Lin: Esterase isozymes in population of *Agrostis stolonifera* L. 175-184.
112. Kung, S. D.: Isoelectric points of the polypeptide compounds of tobacco fraction I protein. 185-191.
113. Chang, Wei-Chin and Shyue-Jan Chan: Cytochemical studies on the changes of nuclear histones and RNA synthesis activity of adventitious root initials in mungbean hypocotyl cuttings. 192-202.
114. Chang, Wei-Chin and Yan-Jen Wang: The effect of abscisic acid on the auxin transport in mungbean hypocotyl segments. 203-213.
115. Wu, Lin: Variation of esterase isoenzymes in different plant tissue of *Agrostis stolonifera* L. 214-219.

Vol. 18 (1977)**(No. 1)**

116. Murashige, T.: Manipulation of organ initiation in plant tissue cultures. 1-24.
117. Wu, Wen-Shi: Antibiotic and mycoparasitic effects of several fungi against seed and soil-borne pathogens associated with wheat and oats. 25-31.
118. Yuan, Hso-Freng: Separation and identification of soluble nucleotides in chinese celery (*Oenanthe javanica* DC). 32-38.
119. Chang, Ho-Shii: Light inhibits sclerotial formation of an isolate of *Helminthosporium sigmoideum* which causes stem rot of *Zizania latifolia*. 39-44.
120. Chou, Chang-Hung, Tzer-Jinn Lin and Chin-I Kao: Phytotoxins produced during decomposition of rice stubbles in paddy soil and their effect on leachable nitrogen. 45-60.
121. Poon, E. S., T. C. Huang and T. T. Kuo: Possible mechanism of symptom inhibition of bacterial blight of rice by an endophytic bacterium isolated from rice. 61-70.
122. Lin, Bor-Chian and C. I. Kado: Evidence for the utilization of galactose by normal and transformed plant cells in culture. 71-77.
123. Huang, Tseng-Chien: *Ceratopteris taiwanensis* Huang Sp. Nov. 78-81.
124. Chang, Chi-Cheng and Bi-Yu Lin: Accumulation of a simple peptide and some Pauly-positive compounds in crown gall tumors induced by *Agrobacterium tumefaciens* strains II BV 7 and 181. 82-87.

(No. 2)

125. Chen, Cheng, C.O. Qualset and E.H. Stanford: Meiotic studies of secondary 42-chromosome triticales. 89-100.
126. Chou, Chang-Hung, M.T. Yeh, C.C. Liang and C. Huang: Quantity and composition of amino acids of leaf protein concentrates in five tropical leguminous plants. 101-108.
127. Lin, Yaw-Huei and Shwu-Jane Jeng: Trypsin inhibitors of *Solanum tuberosum*: Extraction, stability, and change of activity during storage. 109-116.
128. Tseng, Tsung-Che and Chung-Chiu Kuo Han: Characterization and purification of a phosphatidase from potato (*Solanum tuberosum* L.) tubers. 117-130.
129. Chou, Chang-Hung: Phytotoxic substances in twelve subtropical grasses. I. Additional evidences of phytotoxicity in the aqueous fractions of grass extracts. 131-142.
130. Tzean, S.S. and R.H. Estey: Ultrastructure of *Nematotonus leiosporus* hyphae. 143-152.
131. Shieh, Yuh-Jang: Effect of planting density on community photosynthesis and on yielding components of rice plants. 153-168.
132. Li, Yung-Sing: Step-wise stabilization of charge separation at photosynthesis system. II. Reaction center—A hypothesis. 169-178.
133. Pan, Shu-Mei: A preliminary electron microscope study of some Taiwan moss leaves. 179-184.

Vol. 19 (1978)**(No. 1)**

134. Wu, Lin: The seed dormancy of a Taiwan wild rice population and its potential for rice breeding. 1-12.
135. Huang, Tseng-Chien: Miocene palynormphs of Taiwan. I. *Pteridaceae* and *Schizeaceae*. 13-32.
136. Li, Yung-Sing: Redox of Q regulated slow fluorescence induction of isolated chloroplasts. 33-40.
137. Huang, Chi-Ying: Effect of nitrogen fixing activity of blue-green algae on the yield of rice plants. 41-52.
138. Peng, Ching-I and Chien-Chang Hsu: Chromosome numbers in Taiwan compositae. 53-66.
139. Huang, Tan-Chi and Miao-Chan Chang: An antagonistic activity of *Escherichia coli* against a species of *Pseudomonas*. 67-76.
140. Huang, Tseng-Chieng: Miocene palynormphs of Taiwan. II. Tetra grains. 77-82.

141. Peng, Ching-I: Some new records for the flora of Taiwan. 83-86.

(No. 2)

142. Loresto, C. Genoveva and T.T. Chang: Half-diallel and F_2 analyses of culm length in dwarf, semidwarf and tall strains of rice (*Oryza sativa* L.). 87-106.
143. Chou, Chang-Hung, Yueh-Chin Chiang and Chin-I Kao: Impacts of water pollution on crop growth in Taiwan. II. Phytotoxic natures of six rivers and twenty seven industrial waste waters in Kaohsiung area, Taiwan. 107-124.
144. Yuan, Hso-Freng and Yann-Shee Chang: Effect of available silicon in paddy soil on the growth of rice plants. 125-138.
145. Chang, Ho-Shii: An elongated conidium strain and mating type distribution of *Cochliobolus miyabeanus*. 139-144.
146. Antonovics, Janis and Hong-Pang Wu: Twelve years of district yield trials of new japonica rice varieties in Taiwan. I. Analysis, evaluation and recommendations. 145-170.
147. Woo, S.C., T. Mok and J.Y. Huang: Anther culture of *Oryza sativa* L. and *Oryza perennis* Moench hybrids. 171-178.
148. Yang, Jiu-Shreng and H.H. Funderbunk Jr.: Interactions of bipyridium herbicides and soil microorganisms. 179-194.
149. Lu, Sheng-You and Yuen-Po Yang: A new *Alyxia* for Taiwan. 195-198.
150. Hsieh, Huann Ju: An annotated list of *Pythium* in Taiwan. 199-205.

Vol. 20 (1979)

(No. 1)

151. Wu, Hong-Pang and Janis Antonovics: Regional distribution of rice yield in Taiwan, 1965-1976. 1-8.
152. Keng, Hsuan: The phyloclade of *Phyllocladus* and its possible bearing on the foliate organs of coniferophytes. 9-18.
153. Bau, Yun-Sun: *Aspergillus penicilloides* Spegazzini, A xerophilic fungus isolated from lenses. 19-28.
154. Wu, Yu-Lung and M.L. Peterson: Effects of growth substances on cool-temperature seedling vigor in rice. 29-38.
155. Hu, Chao-Hwa: Cytogenetic studies of *Oryza officinalis* complex. 6. Karyotype, chromosome pairing in a haploid *O. minuta* and its possible role in autotetraploid speciation. 39-49.
156. Shih, Ching-Yuan, Tsung-Che Tseng and Chang-Seng Hwa: Subcellular changes during protoplast isolation of *Oryza sativa* L. 50-57.

157. Tzean, Shean-Shong, Ming-Chun Shu and Tsong-Teh Kuo: Influence of storage regimes upon the population dynamics of fungi on the stored rice. 58-88.

(No. 2)

158. Pan, Shu-Mei and Shepley S.C. Chen: The morphology of *Wolffia arrhiza*: A scanning electron microscopic study. 89-96.
159. Wu, Lin and Yun-Tzu Kiang: Using an isozyme marker to detect pollen derived plants from anther culture of wild rice. 97-102.
160. Kiang, Yun-Tzu and Lin Wu: Genetic studies of esterases on Taiwan wild rice population and cultivated rice. 103-116.
161. Tsay, Hsin-Sheng and Mei-Tsang Tseng: Embryoid formation and plantlet regeneration from anther callus of sweet potato. 117-122.
162. Chou, Chang-Hung, Yueh-Chin Chiang, Ai-Chu Huang, Yu-Teh Huang, Wen-Hsiung Lin and Ching-Dee Lee: Impacts of water pollution on crop growth in Taiwan. IV. The Hsinchu and Taoyuan areas. 123-144.
163. Luo, Chi-Cheng: Specific leaf weight (SLW) as related to the yield and its components in rice. 145-156.
164. Lin, Bor-Chian, Shu-Jen Chen, Hong-Jang Day and Ming-Cheng Chien: Isolation and characterization of plasmids in *Xanthomonas manihotis*. 157-171.
